

# Thermochemical Energy Storage: Materials and Application

## **Scope of the session:**

Researchers from academia and industry working in the field of thermochemical energy storage (TCES) are welcome to submit proposals for presentation of their recent work, related (but not exclusively) to one of the following topics:

- Seasonal storage with TCES materials
- Characterization and optimization of TCES materials
- Long-term stability and cycling performance of TCES materials
- Heat transfer in TCES systems
- TCES materials for heat pumps
- Integration of TCES materials in the urban housing environment
- Application of TCES materials for waste-heat recovery
- Coupling of solar thermal with TCES systems
- Theoretical modelling of TCES systems and applications
- ...

## **Important dates:**

- Abstract/Full-text Submission Deadline: 1<sup>st</sup> April 2019
- Early-bird registration ends on 1<sup>st</sup> April 2019
- Conference Dates: 10<sup>th</sup>-12<sup>th</sup> June 2019

## **Organizers:**

Dr. Danny Müller (danny.mueller@tuwien.ac.at), TU Wien, Austria

Prof. Candida Milone (cmilone@unime.it), University of Messina, Italy
